

FCC Commissioners  
The Federal Communications Commission RE: Docket 04-435  
445 12th Street, SW  
Washington, DC 20554

Dear FCC Commissioners ,

I am writing to voice my concerns about the FCC's proposal to relax the restrictions on the use of cell phones on airplanes in flight.

There is no hard evidence that cell phone use doesn't interfere with navigational instruments. The introduction of cell phone use in the cabin will not only increase tension among passengers, it will compromise flight attendants' ability to maintain order in an emergency. Cell phone use could also enable terrorists to coordinate a plan of action more effectively.

Furthermore, in terms of the ENDURABILITY of an airline voyage for we majority-coach-flyers, the addition of more inane, obnoxious NOISE is a terrible idea! (Personal TV screens in each seatback belongs in the same category.) Let's try to promote consideration for others, not another method of self-indulgence! Please leave the current rules in effect.

Sincerely,

Thaddeus P Kozlowski
